New Course

EMS 230

Fundamentals of Transmission Electron Microscopy

CRN: 42770

Lectures: Tuesdays and Thursdays at 12:10 - 13:30 in Bainer 1128.

Lab (EMS/MCB 230L): Olson 163

Course Website: <http://stahlberglab.ucdavis.edu/teaching/ems-mcb-230>

This course is the first of three courses, co-taught by us three faculty from EMS and MCB: EMS/MCB 230 in Winter quarters will give a basic introduction to TEM, EMS/MCB 232 in Spring quarters will lecture advanced TEM, and EMS/MCB 239 in Fall quarters will cover special topics in TEM.

The courses are accompanied by Laboratory courses that allow gathering practical experience with the TEM instruments in Bainer hall and Briggs hall.

The first course on Fundamentals in TEM starts on **January 4, 2007** in Bainer Hall 1128.

The course series will cover **both, Materials Science and Life Science** application.

If you or graduate students or postdocs from your laboratory are interested in learning TEM, please join this course.
